Tel: 647-620-2284

Toronto, ON

- 10 years of experience in **Architectural Design and Development**, specializing in public, educational and residential projects.
- Proficient in **AutoCAD, SketchUp, V-Ray, Lumion, Adobe Photoshop, Revit and Microsoft Office**. Recognized for high quality presentations.
- Design and Development of multiple projects. In the public sector, worked on visitors' centres, schools, kindergartens, places of worship, community centres and libraries. In the residential field, worked on both high-rise & low-rise buildings.
- Experienced in construction documentation and contract administration
- Coordinated with multidisciplinary teams. Working well both in teams & independently.
- **Visualizer and Aerial Photographer**. Embedding architectural renders into their designated real-world environments. Production of aerial videos. Licensed Transport Canada Drone Operator.
- Avid learner. Enthusiastic about new technologies and materials.
- Excellent written and oral communication skills.

## Professional Experience

Architectural Designer and Visualizer

2015 - Present

Freelance work in architectural modelling, drafting and aerial photography as well as seamless integration of architectural and landscape project visualizations into their real-world environments.

Architectural Project Designer

May 2018 – Present

Peter Higgins Architect Inc., Toronto

- Planning residential homes and home expansions in Toronto and the GTA. Leading projects from initial client meetings to developing submission-ready designs for Zoning, Committee of Adjustment, Permits and Construction Documents.
- Building working relationships with Clients, Engineers, Consultants & City Officials.
- Preparing 3D models for client presentations.

Lead Architect

2011 – January 2018

Rachel Walden Architecture and Town Planning, Israel

- In charge of planning various projects including schools, dormitories, kindergartens, community centres, places of worship and visitors' centres.
- Led multiple projects through all the stages of the planning process, from client meetings, research, analysis and initial concepts through to permits, construction documentation & contract administration
- Resolved issues both in office, during planning stages and on the field, with contractors & consultants
- Specialized in project visualization: graphic presentation, drawings & diagrams, detailed 3D renderings

Project Architect

2010 - 2011

El-Or Engineering, Israel

- Planning residential (both high-rise and detached homes) and industrial buildings as well as town plans.
- Working on permit and construction documentation. In charge of 3D modelling and visualization.

Kitchen and graphic designer

2009-2010

*Notaly Inc.*, Israel

- Worked with clients planning customized kitchens for private homes and with planners developing kitchen layouts for real estate projects. Assisted in designing the company's website and publication.
